Participant Data — Profile and Trip Application

This page lists every piece of information the system keeps for a participant: what's on their **profile** (shared by every trip they apply to) and what's on each **trip application**. Labels match the screens.

Columns:

- **Required** means needed before an application can move from **Incomplete** to **Applied**. "Optional" fields can be left blank.
- **Encrypted** says whether the value is stored encrypted in the database (AES-256-GCM, Feature 64). Encrypted values are still shown normally to people allowed to see them, but someone reading the database directly sees only scrambled text. "On disk" means an uploaded file stored encrypted in the documents folder (Feature 63).

Only the participant, the Org Admins of organizations they belong to, the Trip Leaders of their trips, and System Admins can see this information. Teammates cannot.

Part 1 — Profile

The participant fills in the profile from **Edit profile**. Admins can edit it from the **People** page.

Name and contact

Field	Description	Required	Encrypted
First name	Legal first name.	Yes	No
Middle name	Middle name.	Yes	No
Last name	Legal last name.	Yes	No
Preferred name	The name to use day to day, including any suffix such as "M.D." or "R.N.". Defaults to first + last name.	Optional	No
Email	Email address, also the sign-in email when the person has an account. Only the person or a System Admin can change a sign-in email.	Yes	No
Phone country code	Dialing code, for example +1.	Yes	No
Phone number	Main phone number.	Yes	Yes

Address

Field	Description	Required	Encrypted
Country	Country of residence. Defaults to United States.	Yes	No
Address line 1	Street address.	Yes	Yes
Address line 2	Apartment, suite, etc.	Optional	Yes

Field	Description	Required	Encrypted
City	City.	Yes	Yes
State / province	State (a list for the US) or province.	Yes	Yes
Postal code	ZIP or postal code.	Yes	Yes

Personal

Field	Description	Required	Encrypted
Birthdate	Date of birth. Used to tell whether an adult must sign the agreement (under 18).	Yes	Yes
Gender	Male or Female. Female applicants answer the pregnancy question on each application.	Yes	No
Bio	A short description of the person.	Optional	No
Profile photo	Picture shown on the profile and on their public fundraising page.	Optional	No

Emergency contact

Field	Description	Required	Encrypted
Emergency contact name	Who to call in an emergency.	Yes	Yes
Emergency contact phone country code	Dialing code for the contact's phone.	Yes	No
Emergency contact phone	The contact's phone number.	Yes	Yes
Emergency contact relationship	Spouse, Father, Mother, Child, Grand Mother, Grand Father, or Other.	Yes	No

Church home

Field	Description	Required	Encrypted
Church name	The person's current church.	Yes	No
Church city	City of that church.	Yes	No
Church state/province	State or province of that church.	Yes	No

Health

Field	Description	Required	Encrypted
Have allergies?	Yes or No.	Optional	Yes
Allergies description	What they are allergic to and how serious it is.	Yes, when allergies is Yes	Yes
Take medication?	Yes or No.	Optional	Yes

Field	Description	Required	Encrypted
Medical conditions	Conditions chosen from the organization's own list. The person's selections are encrypted; the organization's list of condition names is not.	At least one, when medication is Yes	Yes

Other languages

Field	Description	Required	Encrypted
Do you speak a language other than English?	Yes or No.	Optional	No
Language	Each other language spoken (one row per language).	At least one complete row, when Yes	No
Fluency	Basic or Conversational.	Yes, per row	No
Do you know medical terminology in this language?	Yes or No.	Yes, per row	No

Documents

Each document the person uploads (passport, license, certification, diploma, and so on). The document type decides which fields appear.

Field	Description	Required	Encrypted
Document type	Which kind of document, chosen from the system's list. Some types show instructions.	Yes	No
Country issued	Country that issued it. Defaults to United States.	—	No
Document number	For example the passport number. Shown only when the type requires it.	When the type requires it	Yes
Issue date	Date issued.	—	No
Expiration date	Date it expires. Hidden for types without an expiration (for example a diploma).	When the type has one	No
File	The uploaded scan or photo (image, HEIC, or PDF). The file name is not encrypted.	Every document needs a file before an application can be submitted	On disk

Specializations (only for document types that allow them, for example a board certification):

Field	Description	Required	Encrypted
Specialization	Chosen from the document type's list, for example Pediatrics. Each once per document.	Yes, per row	No
Date	Date of the specialization.	Yes, per row	No
File	Its own uploaded certificate. The file name is not encrypted.	Yes, per row	On disk

Whether a particular document or specialization is needed depends on the applicant's trip role and on whether the trip requires a passport. See "Trip roles, required documents, and specializations" in system-overview.md.

Account (people with a sign-in)

Field	Description	Encrypted
Password	Set by the person (at least 8 characters). Changed with **Change password** or **Forgot password?**. Only a System Admin can set someone else's password.	Hashed: stored one-way, so it can't be read back by anyone
System administrator	Yes/No, set only by a System Admin.	No
Organization roles	The organizations the person belongs to and their role in each (for example Trip Participant, Org Admin).	No

---

Part 2 — Trip application

One application per person per trip. The participant fills it in from **Apply** or **Update App**.

Application questions

Field	Description	Required	Encrypted
Trip role	The job they will do on the trip (for example Nurse). Only roles with open spots are listed. A role reserved for them is chosen automatically and locked.	Yes	No
Health answers (shown, not edited)	Allergies, medication, medical conditions, and languages from the profile, shown as text with **Update profile**.	Comes from the profile	Stored on the profile (see Health above)
Are you pregnant?	Yes or No. Asked of female applicants only.	Yes, for female applicants	Yes
Due date	Expected due date. A doctor's travel clearance message is shown.	Yes, when pregnant	Yes

Funding

Field	Description	Required	Encrypted
I will self-fund	They will pay their own costs.	At least one of the two	No
I will raise funds	They will fundraise (their public fundraising page is available once approved).	At least one of the two	No

Roommate preference

Field	Description	Required	Encrypted
I have a preferred roommate	Checkbox.	Optional	No
Preferred roommate name(s)	Who they would like to room with.	Yes, when checked	No

Flight purchase

Field	Description	Required	Encrypted
Flight purchase	"Arrange for and purchase my own air travel" or "*Organization* arrange for and purchase my air travel".	Yes	No
Preferred departure airport	Airport they want to fly from.	When the organization buys	No
Preferred return airport	Airport they want to return to.	When the organization buys	No
Class of travel	Basic Economy, Economy, Premium Economy, Business, or First.	When the organization buys	No
Preferred airline	Airline they prefer.	When the organization buys	No
Refundable ticket	Yes or No.	When the organization buys	No

Travel options

Field	Description	Required	Encrypted
Travel options	The trip's optional extras (for example a single room), grouped in sets. Each option shows its price adjustment, which is added to the participant's cost.	One choice per set	No

Agreements

Field	Description	Required	Encrypted
I agree to the Participation agreement	Accepts the organization's participation agreement, shown on the application. The date is recorded.	Yes, when the organization has one	No
I agree to the medical agreement	Accepts the organization's medical agreement. Shown only when they take medication. The date is recorded.	Yes, when shown	No
Electronic signature (full name)	The participant types their full name to sign. Under 18: "Adult electronic signature (full name)".	Yes, when there is an agreement	No
Adult First name, Last name, Email, Relationship to participant	The adult signing for a participant under 18.	Yes, when under 18	No

Status

Field	Description	Encrypted
Status	**Incomplete** (saved but something is missing), **Applied** (everything is in), **Approved**, **Declined**, or **Cancelled**. The system sets Incomplete and Applied; staff approve or decline. The participant or staff can cancel and uncancel.	No

The application also checks, before **Applied**, that every profile document has a file, that the trip role's required documents and specializations are present and not expired before the trip ends, and that a valid passport is uploaded when the trip requires one.

Part 3 — Added by staff after applying

Data	Description	Where	Encrypted
Participant cost	The participant's cost for the trip: the trip's cost unless a different cost is stored for this participant.	Shown on the trip page	No
Room assignment	Room number, room type (King, Double, or Triple), and number of nights.	Room list	No
Flight record	Whether purchased, ticket cost, and comments.	Flights page	No
Flight segments	Arrival and return segments: airline, flight number, from and to airports, departure and arrival date and time. Participants who buy their own ticket enter these themselves.	Flights page, or the participant's trip page	No
Donations	Donations credited to the participant, which make up "amount raised" and "amount owed".	Donations page, public donate page	No

---

Summary — what is encrypted

- **Profile:** phone number, address lines 1 and 2, city, state / province, postal code, birthdate, emergency contact name and phone number, allergies (yes/no and description), medication (yes/no), and medical conditions.
- **Documents:** document numbers in the database; every uploaded document and specialization file on disk.
- **Application:** the pregnancy answer and due date.
- **Passwords** are hashed rather than encrypted, so nobody can read them back.
- **Everything else** (names, email, gender, church, languages, document dates, the profile photo, and all other application and staff data) is stored as plain text.
